## USDA'S NATIONAL AGRICULTURAL STATISTICS SERVICE CONDUCTS HEMP SURVEY

**LAKEWOOD, Colo. – December 20, 2024** – USDA’s National Agricultural Statistics Service (NASS) will send the Hemp Production and Disposition Inquiry to over 400 Arizona, Colorado, Montana, New Mexico, Utah, and Wyoming producers on January 21. This follows NASS’s 2023 Hemp Acreage and Production survey. Like the 2023 questionnaire, this year’s survey will collect information on the total planted and harvested area, yield, production, and value of hemp in the United States in 2024.

“The Hemp Production and Disposition Inquiry will provide critical data about the hemp industry to assist producers, regulatory agencies, state governments, processors, and other key industry entities,” said Rodger Ott, Director, Mountain Regional Field Office.

NASS estimated the total value of hemp production at \$291 million in 2023, up 18 percent from 2022. Planted area for industrial hemp grown in the open for all utilizations in the United States totaled 27,680 acres. Area harvested for all utilizations totaled 21,079 acres. These and other statistics can be found in the 2023 National Hemp Report.

Survey recipients are asked to respond securely online at [agcounts.usda.gov](https://agcounts.usda.gov), by mail or fax. Those who do not respond by January 30 may be contacted to arrange an interview to complete the survey.

As defined in the Agriculture Improvement Act of 2018 (2018 Farm Bill), the term “hemp” means the plant species *Cannabis sativa* L. and any part of that plant such as the seeds, all derivatives, and extracts with a delta-9 tetrahydrocannabinol concentration of not more than 0.3% on a dry weight basis. The [Domestic Hemp Production Program](#) established in the Agriculture Improvement Act of 2018 allows for the cultivation of hemp under certain conditions.

All information reported by individuals will be kept confidential, as required by federal law. NASS will publish the survey data April 17, 2025, on the NASS website at [nass.usda.gov](https://nass.usda.gov) and in the NASS Quick Stats database at [quickstats.nass.usda.gov](https://quickstats.nass.usda.gov). For more information about the 2024 Hemp Production and Disposition Inquiry, visit the hemp survey web page at [www.nass.usda.gov/go/hemp](https://www.nass.usda.gov/go/hemp). For assistance with the survey or for state specific questions, please contact your USDA NASS State Statistician at 1-800-392-3202:

Arizona, Colorado – Rodger Ott  
Montana – Eric Sommer  
New Mexico – Margie Whitcotton  
Utah – John Hilton  
Wyoming – Leslee Lohrenz
