COUNTY AGRICULTURAL COMMISSIONERS' REPORTS

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office.

For your convenience, a listing is included at the end of this report. Many of the counties publish the reports on their websites free-of-charge.

USDA's National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at:

www.nass.usda.gov/ca.

Introduction

This publication is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These reports provided detailed annual data available on agricultural production by county.

In order to curb costs and increase efficiency, there will no longer be two separate books. Rather, one publication will serve as a one stop resource for reported County Agricultural crop data. The detailed Data will follow the Summary, and County Agricultural Commissioners' addresses will still be found at the end of the publication.

Reports were received from 55 of 58 counties for 2011. Three County Agricultural Commissioners' Reports, Plumas-Sierra, Modoc and Trinity, were not available at publication, therefore the most recent data from the last available reports were used. 2010 data was used for Plumas-Sierra, 2008 data for Modoc County, and 2007 data for Trinity County. Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's office. Many of the counties publish the report on their websites.

Basic data collected by the Agricultural Commissioners and their staff members are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc.

The amount of detail varies by county. For instance, one county may list all grapes; another may show grapes by raisin, table, and wine; and another may list a further breakdown, such as canned, crushed, dried, fresh, and juice. The data were coded at the detail level.

The sum of other counties included only those counties that provide the California Department of Food and Agriculture a listing of commodities that cannot be published at the county level due to disclosure of confidential information. However, data can be published when combined with other counties. Please be aware that the count is shown as one in those cases.

Credit is due the County Agricultural Commissioners and their staff members for preparing the annual county Crop Reports upon which this compilation is based.

Summary of County Agricultural Data

California's counties reported an increase of 11.7 percent in the value of their agricultural production for 2011. Six counties, an increase from four in 2010, reported agricultural production exceeding \$3.0 billion each. Fourteen counties reported a value of production in excess of \$1.0 billion. Fresno continued as the leading county with an agricultural production value of \$6.88 billion, an increase of 15.8 percent from the 2010 value. Tulare County was second in value of production with \$5.63 billion, a 15.7 percent increase from 2010. Kern had an increase of 12.8 percent in production to \$5.36 billion, and remained third in value. Monterey's slight decrease of 2.1 percent dropped their value of agricultural production to \$3.92 billion, but remained fourth in value again for 2011.

CALIFORNIA'S TOP 10 COUNTIES CHANGE IN AGRICULTURAL PRODUCTION, 2010 - 2011

TOP 15 COMMODITIES IN CALIFORNIA

Highlights by Rank and County Percentage of State Total, 2010-2011

Milk and Cream	Tulare leads again with close to 27 percent of the State total
Grapes, All	Fresno leads again, followed closely by Kern and Tulare
Almonds	Fresno overtakes Kern this year, Stanislaus follows in 3 rd place
Cattle and Calves	Tulare is No. 1, followed by Fresno and Kern, Imperial is ranked 4 th this year
Nursery Products	San Diego continues to lead with close to 27 percent of the State total
Strawberries	Monterey and Ventura lead with more than 62 percent of the total
Lettuce	Monterey leads with over 63 percent, Imperial follows with over 12 percent
Alfalfa Hay	Kern leads with over 16 percent, followed by Imperial at over 12 percent
Walnuts (English)	San Joaquin leads with nearly 19 percent, followed by Butte
Oranges	Tulare leads with a little over half the State total
Silage, All	Tulare holds almost 30 percent of the total
Chickens	Fresno leads with over 47 percent, Merced follows with almost 29 percent
Tomatoes, Processing	Fresno leads with over 38 percent, followed by Kings and Yolo this year
Cotton Lint	Fresno and Kings hold over 65 percent of the State total
Pistachios	Kern leads with more than 41 percent of the total

Gross Value in Agricultural Commissioners' Reports

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The *California County Agricultural Commissioners' Reports* publication also provides statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, California Field Office. The larger total value reported by Agricultural Commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties include timber as a part of their crop report, following the pattern set by the California County Agricultural Commissioners and Sealers Association (CACASA). Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total 2011 value of production reported by the counties, including timber, is \$51.8 billion, up 11.8 percent from last year. At \$65.8 million, Humboldt County leads the State with 24.1 percent of the State's total timber value.

**CALIFORNIA GROSS VALUE OF AGRICULTURAL PRODUCTION
WITH AND WITHOUT TIMBER, 2000-2011
\$BILLIONS**

California's Leading Timber Counties, 2011 1/

Timber Rank	County	Timber Volume	Total Agricultural Value		Timber Percentage of Total Agricultural Value Within County
			(Including Timber)		
			Timber Value	Timber Value	
		<i>Million Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Humboldt	216,272	233,001	65,778	28.2
