COUNTY AGRICULTURAL COMMISSIONERS' REPORTS

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office.

For your convenience, a listing is included at the end of this report. Many of the counties publish the reports on their websites free-of-charge.

USDA's National Agricultural Statistics Service, Pacific Region-California publications are available free-of-charge on the Internet at:

www.nass.usda.gov/ca.

Introduction

This publication is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These reports provided detailed annual data available on agricultural production by county.

In order to curb costs and increase efficiency, there will no longer be two separate books. Rather, one publication will serve as a one stop resource for reported County Agricultural crop data. The detailed Data will follow the Summary, and County Agricultural Commissioners' addresses will still be found at the end of the publication.

Reports were received from 54 of 58 counties for 2014. Four County Agricultural Commissioners' Reports, Humboldt, Lassen, Modoc, and Trinity, were not available at publication. Therefore, the most recent data from the last available reports were used for Humboldt (2013) and Lassen (2012) Counties. However, Modoc and Trinity were not published this year as the last report received from Modoc County was from 2008 and Trinity was from 2007. Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's office. Many of the counties publish the report on their websites.

Basic data collected by the Agricultural Commissioners and their staff members are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc.

The amount of detail varies by county. For instance, one county may list all grapes; another may show grapes by raisin, table, and wine; and another may list a further breakdown, such as canned, crushed, dried, fresh, and juice. The data were coded at the detail level.

The sum of other counties included only those counties that provide the California Department of Food and Agriculture a listing of commodities that cannot be published at the county level due to disclosure of confidential information. However, data can be published when combined with other counties. Please be aware that the count is shown as one in those cases.

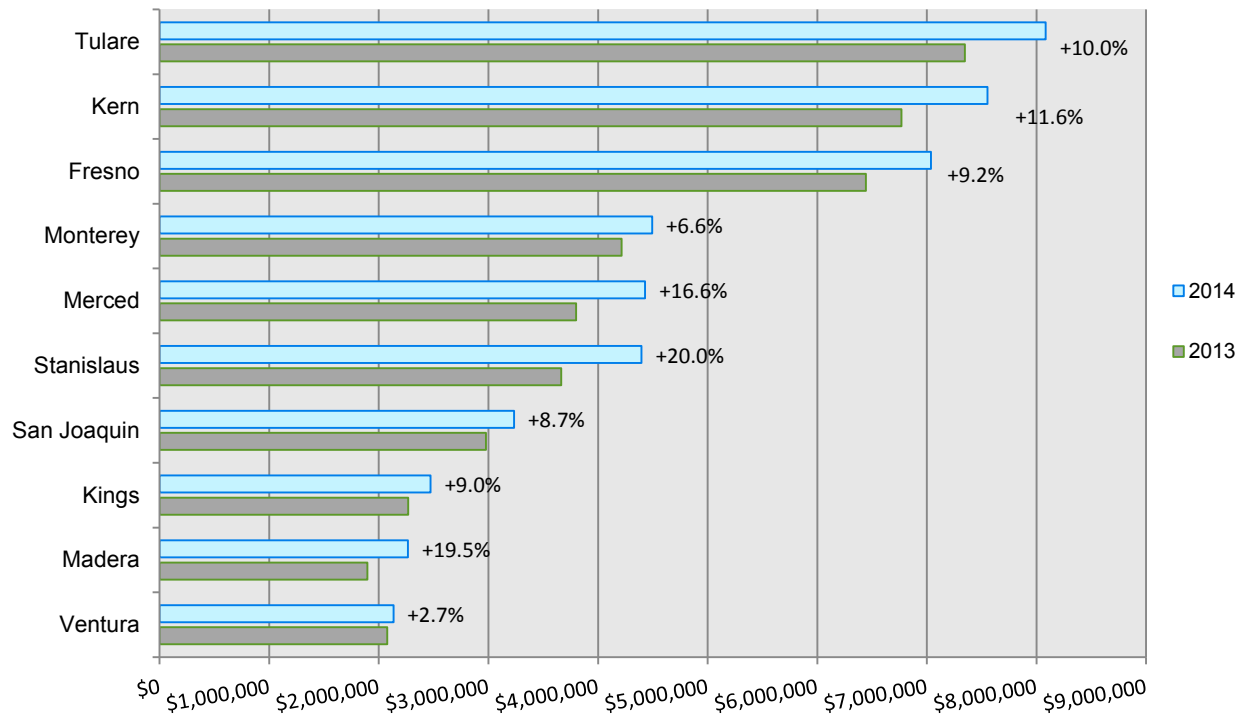

Credit is due the County Agricultural Commissioners and their staff members for preparing the annual county Crop Reports upon which this compilation is based.

Summary of County Agricultural Data

California's counties reported an increase of 8.5 percent in the value of agricultural production for 2014. Seven counties reported agricultural production exceeding \$3.0 billion each. Fourteen counties reported a value of production in excess of \$1.0 billion. Tulare County remained the leading county with an agricultural production value of \$8.08 billion, an increase of 10.0 percent from the 2013 value. Kern County was second in value of production with \$7.55 billion, an 11.6 percent increase from 2013. Fresno County was third in value, with an increase of 9.2 percent in production to \$7.04 billion. Monterey remained fourth in value with \$4.49 billion, an increase of 6.6 percent from 2013.

CALIFORNIA'S TOP 10 COUNTIES CHANGE IN AGRICULTURAL PRODUCTION, 2013 - 2014

Top 15 Commodities in California

Highlights by Rank and County Percentage of State Total, 2013-2014

Milk and Cream	Tulare leads again with over 27 percent of the State total	1
Almonds	Kern leads at nearly 19 percent followed by Stanislaus and Fresno both about 17 percent	2
Grapes, All	Kern leads with 25 percent of the State total followed by Fresno with 13 percent	3
Cattle and Calves	Tulare leads with 22 percent of total, Fresno moves to rank 2 nd this year with 13 percent	4
Nursery Products	San Diego continues to lead with 24 percent of state total	5
Walnuts (English)	San Joaquin leads with over 20 percent, followed by Butte	6
Strawberries	Monterey and Ventura lead with nearly 60 percent of the total	7
Lettuce	Monterey leads with over 70 percent, Imperial follows with almost 8 percent	8
Pistachios	Kern leads with 24 percent followed by Fresno with 23 percent	9
Oranges	Tulare leads with 62 percent of the State total	10
Alfalfa Hay	Kern leads with 15 percent, followed by Imperial at 14.5 percent	11
Tomatoes, Processing	Fresno leads with over 32 percent, followed by Yolo and Kings this year	12
Silage, All	Tulare at almost 24 percent of the total followed by Merced with just under 19 percent	13
Chickens	Fresno leads with nearly 50 percent, Merced follows with over 26 percent	14
Tangerines	Kern holds almost 50 percent followed by Tulare with over 32 percent	15

Gross Value in Agricultural Commissioners' Reports

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The *California County Agricultural Commissioners' Reports* publication also provides statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, Pacific Region-California. The larger total value reported by Agricultural Commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties include timber as a part of their crop report, following the pattern set by the California County Agricultural Commissioners and Sealers Association (CACASA). Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total 2014 value of production reported by the counties, including timber, is \$64.9 billion, up 8.5 percent from last year. At \$81.5 million, Humboldt County leads the State with 25 percent of the State's total timber value.

California's Leading Timber Counties, 2014 1/					
Timber Rank	County	Timber Volume	Total Agricultural Value	Timber Value	Timber Percentage of Total Agricultural Value Within County
			(Including Timber)		
		<i>Million Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Humboldt	244,697	278,303	81,513	29.3
2	Shasta	192,176	143,594	39,861	27.8
3	Siskiyou	183,730	363,330	36,745	10.1
4	Mendocino	115,197	174,200	34,661	19.9
5	Plumas	97,207	51,482	18,416	35.8

1/ Timber volume and value data are from the State Board of Equalization, Timber Tax Division.

County Rank by Gross Value of Agricultural Production, 2013-2014 1/

County	Rank Without Timber					Rank With Timber
