## COUNTY AGRICULTURAL COMMISSIONERS' REPORTS

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office.

For your convenience, a listing is included at the end of this report. Many of the counties publish the reports on their websites free-of-charge.

USDA's National Agricultural Statistics Service, Pacific Region-California publications are available free-of-charge on the Internet at:

[www.nass.usda.gov/ca](http://www.nass.usda.gov/ca).

## Introduction

This publication is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These reports provided detailed annual data available on agricultural production by county.

In order to curb costs and increase efficiency, there will no longer be two separate books. Rather, one publication will serve as a one stop resource for reported County Agricultural crop data. The detailed Data will follow the Summary, and County Agricultural Commissioners' addresses will still be found at the end of the publication.

Reports were received from 49 of 58 counties for 2017. Eleven County Agricultural Commissioners' Reports, Del Norte, Humboldt, Lake, Mariposa, Mendocino, Modoc, Plumas, San Benito, San Francisco, Sierra and Trinity were not available at publication. Therefore, for Del Norte, Mariposa, Mendocino, Plumas and San Francisco 2015 reports were used. Reports from 2016 were used for Humboldt, Lake, San Benito, Sierra and Trinity. Modoc was not published this year as the last report received from Modoc County was from 2008. Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's office. Many of the counties publish the report on their websites.

Basic data collected by the Agricultural Commissioners and their staff members are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc.

The amount of detail varies by county. For instance, one county may list all grapes; another may show grapes by raisin, table, and wine; and another may list a further breakdown, such as canned, crushed, dried, fresh, and juice. The data were coded at the detail level.

The Sum of Others, in the detailed table, includes only those counties that provide the California Department of Food and Agriculture a listing of commodities that cannot be published at the county level due to disclosure of confidential information. However, data can be published when combined with other counties. Please be aware that the count is shown as one in those cases.

Credit is due the County Agricultural Commissioners and their staff members for preparing the annual county Crop Reports upon which this compilation is based.

## Summary of County Agricultural Data

California's counties reported an increase of 5.1 percent in the value of agricultural production for 2017. Six counties reported agricultural production exceeding \$3.0 billion each. Fourteen counties reported a value of production in excess of \$1.0 billion. Kern County is the leading county with an agricultural production value of \$7.24 billion, an increase of 0.9 percent from the 2016 value. Tulare County was second in value of production with \$7.04 billion, a 10.5 percent increase from 2016. Fresno County was third in value, with an increase of 13.6 percent in production to \$7.02 billion. Monterey remained fourth in value with \$4.43 billion, an increase of 4.0 percent from 2016.

#### Highlights by Rank and County Percentage of State Total, 2016-2017

Grapes, All	Kern leads with over 24 percent of the State total followed by Fresno with 13 percent	1
Milk and Cream	Tulare has over 26 percent of the State total followed by Merced with 15.5 percent.	2
Almonds	Kern leads at 19 percent followed by Fresno at 18.3 and Stanislaus at 15.8 percent.	3
Cattle & Calves	Tulare leads at nearly 18 percent of State total with Fresno at 11.9 percent.	4
Nursery Products	San Diego leads with 23 percent of state total.	5
Strawberries	Monterey and Ventura lead with 59 percent of the State total.	6
Lettuce	Monterey leads with 60 percent, Imperial follows with over 17 percent.	7
Pistachios	Kern leads with 31.6 percent followed by Fresno with 29.4 and Tulare with 19.5 percent.	8
Walnuts	San Joaquin leads with over 18 percent, followed by Butte with almost 15 percent.	9
Oranges	Tulare leads with 50.8 percent of the State total with Kern at 28.7 percent.	10
Tangerines	Tulare at over 34 percent with Fresno at 32 and Kern at 29.4 percent of State total.	11
Chickens	Fresno leads with 42.2 percent, Merced follows with 33.8 percent.	12
Alfalfa Hay	Imperial leads with 17 percent, followed by Merced at 13.2 percent.	13
Silage, All	Tulare has over 32 percent of the State total, followed by Stanislaus with 15 percent.	14
Lemons	Ventura leads with 31.4 percent, Tulare follows with 20.8 percent.	15

## Gross Value in Agricultural Commissioners' Reports

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The *California County Agricultural Commissioners' Reports* publication also provides statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, Pacific Region-California. The larger total value reported by Agricultural Commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties include timber as a part of their crop report, following the pattern set by the California County Agricultural Commissioners and Sealers Association (CACASA). Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total 2017 value of production reported by the counties, including timber, is \$60.0 billion, up 5.3 percent from last year. At \$120.8 million, Humboldt County leads the State with 28 percent of the State's total timber value.

For individual California County Crop Reports, contact the County Agricultural Commissioner's office or visit <https://www.cdfa.ca.gov/exec/county/CountyCropReports.html>

This summary is based on the annual Crop Reports compiled by the California County Agricultural Commissioners. These reports provide the most detailed annual data available on agricultural production by county. Basic data collected by the Agricultural Commissioners and their staffs are compiled from many sources. Sources vary from county to county. Examples of data sources include grower surveys, regulatory and inspection data, shipment data, industry assessments, etc. USDA's National Agricultural Statistics Service (NASS), Pacific Regional Field Office compiles the data in cooperation with the California Department of Food and Agriculture (CDFA).
