United States Department of Agriculture
National Agricultural Statistics Service

Dear Friends in Agriculture,

It has been a little over a year since I came to Colorado and it has been a pleasure to get out and see and meet those involved with our agricultural industry. It is such a vital part of Colorado's economy and our agency is working hard to accurately measure what is being produced in the state. The statistics in this bulletin are used extensively by members of the agriculture community to help promote markets, research and policy decisions. Our office receives many, many requests for information that we release of which almost all requests are used to show the importance of agriculture in the state and help the industry in some fashion.

To all our producers and agri-businesses out there that took time to help up us, I say thanks. You only make this publication possible and the information you supply truly helps your industry. I also want to thank our friends at the Colorado Department of Agriculture, the Cooperative Extension Service, the Farm Service Agency, and the Risk Management Agency for helping us promote and provide information that helps us do our job better and serve agriculture.

Unfortunately, due to the economic troubles of the state the last couple of years, funding for printing and compiling some of the pages of this bulletin was lost. Therefore we did have to scale back the size of the bulletin and we no longer can publish a hard copy, but I feel it still highlights most of the data we provide.

Good decisions can only be made with good information. Our agency strives to deliver the timely, accurate and useful statistics that the agricultural industry relies on. So, thank you again for your support and interest in Colorado agriculture and enjoy this publication. If you have any questions or comments about this publication or need any additional information, please contact our office.

Sincerely

A handwritten signature in black ink, appearing to read "William Meyer".

William Meyer

Director

AGRICULTURAL STATISTICS DISTRICTS

ASD by Number: Northwest and Mountains = 10; Northeast = 20; East Central = 60; Southwest = 70; San Luis Valley = 80; Southeast = 90

COLORADO

The Centennial State, admitted to the Union in 1876, is the eighth largest state in area and has the highest average elevation. The highest point is at Mount Elbert, 14,433 feet above sea level, one of the 53 "fourteeners" rising above 14,000 feet. The lowest elevation is 3,350 feet in extreme eastern Prowers County.

Approximate Land Area: 66.3 Million Acres *
 Approximate Cropland Area: 11.5 Million Acres *
 Approximate Irrigated Area: 2.6 Million Acres *
 Number of Farms and Ranches (2009): 36,200
 Average Size of Farm and Ranch (2009): 865 Acres

Farms by Type *

81.4% Individual
 10.2% Partnership
 6.3% Corporate
 2.1% Other

Farms By Tenure *

66% Full Owners
 26% Part Owners
 8% Tenants

Farms By Class *

60% Livestock & Poultry
 40% Crops

Farm Marketing Receipts (2008): \$6,590.5 Million
 Livestock & Livestock Products: \$4,130.5 Million (63% of the total)
 Field, Fruit, & Vegetable Crops: \$2,379.0 Million (37% of the total)

PRICES RECEIVED BY FARMERS

Prices received by farmers and ranchers provide a basis for calculating the income from the Agricultural Sector as part of the National Income Accounts. These data are also extensively used to analyze past and current marketing patterns and to make current and future marketing decisions. Prices received for major farm commodities are used in computing the Index of Prices Received by Farmers, an important indicator of the economic environment of the nation's agricultural producers.

Marketing year average prices, by commodity, Colorado, 2001-2009
