Dear friends of Delaware agriculture,

The numbers contained in this report are not just statistics. They represent the dedication, hard work, vision and enduring spirit of thousands of Delaware farmers. The numbers help tell the story of just how much we owe these men and women who care for their flocks and herds, tend to their acres of grain, and plant and pick the fruits and vegetables we all enjoy.

This administration is dedicated to the strength and success of First State farm families, coupled with the valued support of our partners in the General Assembly. Delaware is a leader in preserving farmland and keeping farms profitable, with more than 116,000 acres now permanently preserved. We also make critical investments in our young people by helping them purchase farms, and invest in the land with a loan program to install irrigation equipment. These investments will be paying off for generations to come in the health and success of our farmers.

Thank you for the work that you do to keep First State farmers strong.
