

2019 FIELD CROPS HIGHLIGHTS

Value

The 2019 total value of production for corn, cotton, cottonseed, hay, and peanuts totaled \$334 million, an increase of 5 percent from the previous year's total of \$319 million. The total value of peanut production increased 14 percent and was valued at \$119 million. The total value of corn production decreased 10 percent and was valued at \$39.1 million. The value of cottonseed production increased 114 percent and was valued at \$6.36 million. The value of cotton production increased 50 percent and was valued at \$52.6 million. The value of hay production increased 12 percent and was valued at \$117 million.

Acreage and Production

Acreage harvested in 2019 for corn, cotton, hay, and peanuts totaled 590 thousand acres, up 2 percent from the 578 thousand acres harvested in 2018. Harvested acreage for cotton (111,000) increased 19 percent and peanuts (155,000) increased 8 percent. Decreased acreage was estimated for corn (54,000) by 13 percent, and hay (270,000) or 4 percent.

Sugarcane

Florida producers harvested 395 thousand acres of sugarcane for sugar and seed in 2019, down 1 percent from 2018. Production was down 1 percent in 2019 from 2018.
