

2022 FIELD CROPS HIGHLIGHTS

Value

The 2021 total value of production for corn for grain, cottonseed, hay, peanuts, and upland cotton for lint totaled \$384 million, an increase of 16 percent from the previous years total of \$332 million. Cottonseed total value of production was up 68 percent and was valued at \$6.36 million. Corn for grain total value of production was up 47 percent and was valued at \$70.3 million. Upland cotton for lint total value of production increased 34 percent and was valued at \$47.9 million. Peanut total value of production was up 13 percent and was valued at \$130 million. Hay total value of production decreased slightly and was valued at \$129 million.

Acreage and Production

Acreage harvested in 2021 for corn for grain, hay, peanuts, and upland cotton totaled acres up 3 percent from the acres in 2020. Increased acreage was estimated for corn for grain (66,000) by 8 percent and hay (300,000) by 7 percent. Decreased harvested acreage was estimated for peanuts (162,000) by 2 percent and cotton for lint (90,000) decreased by 3 percent.

Sugarcane

Florida producers harvested 404,500 acres of sugarcane for sugar and seed in 2021, down 5 percent from 2020. Sugarcane production for sugar and seed (17.2 million tons) was down 9 percent in 2021 compared to previous year. Sugarcane production sugar (16.5 million tons) was down 9 percent from 2020.
