2007 Census of Agriculture You Should Be Counted!

NASS is Committed to Making Sure ALL Farms are Accurately Represented

USDA's National Agricultural Statistics Service (NASS) will soon conduct the 2007 Census of Agriculture. We need your help to make it the most effective tool it can be! The Census of Agriculture provides the only source of uniform, comprehensive agricultural data for every county in the nation.

Your Voice

Have you ever thought agriculture wasn't considered a valued and important industry? Taking part in the 2007 Census of Agriculture is your opportunity to be heard.

Join this collective voice and take this opportunity to have a positive impact on US agriculture at both the local and national levels.

When you receive your Census report form in early 2008, please complete and return it promptly.

Your Future

The 2007 Census of Agriculture will collect information concerning all areas of farming and ranching operations, including production expenses, market value of products and operator characteristics.

Your responses help provide information that is used for all types of agricultural planning and decision-making. This information helps USDA work with other organizations to develop short-term and long-term improvement, strategies and safeguards.

Here are just a few examples of how the information is used to benefit your operation and your entire community.

- Your county extension office uses the data in community planning to ensure you are getting the services you need.
- USDA uses the information to determine if its service centers are staffed at appropriate levels to assist farmers and ranchers.
- Lending institutions use the information to provide sufficient funds for operational loans.

Your input, along with the input of all of America's farmers and ranchers, can make a real difference for you and your community.

Your Responsibility

As a member of the US farming and ranching population, it's your responsibility to stand up and be counted. The Census of Agriculture is how you can make a difference to your operation, your community and all of US agriculture. You provide USDA with vital information that cannot be collected by other means.

To be relevant, this information needs to be accurate and inclusive. You can help us tell the story of Indiana's diverse agriculture.

If you do not receive your 2007 Census of Agriculture report form by mid-January 2008, please call toll-free: 1-800-363-0469.

**2007 CENSUS OF
AGRICULTURE**
YOUR VOICE. YOUR FUTURE. YOUR RESPONSIBILITY.

Your responses are protected by law, Title 7, U.S. Code. This law safeguards the privacy of your data. Federal law requires that your individual answers are kept completely confidential. USDA publishes the data totals for statistical purposes only, and the individual data cannot be used for purposes of taxation, investigation, or regulation.

~ ~ ~ About the Cover ~ ~ ~

"County Fair Tractors" was taken by Libbie Fender from Knightstown, Indiana. This is Libbie's first year in 4-H and she is eleven years old. Libbie was at the Hancock county fair looking for colorful pictures when she noticed the tractors. She said that her interest in photography was sparked by her father and now she takes her camera everywhere.

The photograph on the back of the cover is named "Rural Warren County", and was taken by eleven year old Emily Fry-Schutt of Attica, Indiana. Emily is a second year 4-H member. She took this picture in the fall of 2005, while on her way home from church. She liked the colors of the trees and the contrast with the abandoned barn and thought it would make a good picture. Emily's interest in photography comes from her mother. She says, "We always have a camera close by".

Acknowledgments

We extend a special thanks to the farmers, agri-businesses, extension officials and others who voluntarily provided basic data used to prepare the statistics presented in this publication and to the corps of enumerators who so faithfully collected much of our raw data.

We would also like to thank all of the 4-H photography members that submitted pictures for use in our publication. All of the photos were included on posters displayed at the 2006 Indiana State Fair.

Randy Woodson,
Dean of Agriculture

This information is very important, but just as important are the people. We take this opportunity to thank the following for helping provide this valuable resource to the farmers of Indiana.

**Greg Preston
Director**

In this issue of the 2006-2007 Indiana Agricultural Statistics Annual Summary you will find a comprehensive snapshot of Indiana's agriculture. The data contained in this book is published each year to meet the need for accurate, reliable and unbiased information regarding Indiana's agricultural production. This information is often used to provide facts to decision makers that determine the future of Indiana's agricultural industry. Our goal for this publication remains unchanged. To provide the public with data to help them understand the current situation of Indiana's farming community and future opportunities. We continue to strive to exceed this goal. Hoosier crop farmers should take pride in the fact that Indiana continues to rank near the top in the production of corn, soybeans, popcorn, blueberries, peppermint, spearmint, processing tomatoes, and vegetables for processing. Indiana livestock producers helped put Indiana's rank at the top for hogs, chickens, eggs, and turkeys raised. The information in this annual summary is collected from farmers using surveys throughout the year. The voluntary response and cooperation of Indiana farmers, agricultural business firms, USDA Farm Services Agency County staff, Purdue University County Extension Staff, the NASDA Enumerators, and others across the state make this annual summary possible. The Indiana Field Office of USDA's National Agricultural Statistics Service pledges confidentiality of all individual reports or business data. We take every action necessary to ensure this pledge is upheld.

We are again pleased to feature the photography talents of 21 individual 4-H members in Indiana's 2006-2007 Agricultural Statistics Annual Summary. These photographs, exhibited at the 2006 Indiana State Fair, provide a glimpse of the wide variety of Indiana's agriculture from future farmers perspective. We are grateful to all of the 4-H members who submitted their photos for publication.

This is the 81st edition, which documents Indiana Agriculture in 2006, and is published by the cooperative efforts of USDA's National Agricultural Statistics Service and Purdue University Agricultural Research Programs. The Federal/University cooperative partnership has existed since 1925 and continues to enhance agricultural research programs with State specific statistical projects. Some of those projects include Timber Price Survey, Corn-after Corn Management Survey, Soybean Growers, Corn Ear Rot & Mycotoxin Analysis, Soybean Phytophthora Root Rot & Cyst Nematode Sampling, and Grain Marketing Analysis. Results of these special research efforts are mostly published by the individual research programs and generally not a part of this publication.

Sincerely,

Greg Preston
Director
USDA, NASS, Indiana Field Office

FARM INCOME

CASH RECEIPTS

Indiana farmers received \$5.97 billion in cash receipts from farm marketings in 2006, 10 percent above 2005. Cash receipts from crops were up 16 percent, and receipts for livestock were slightly above the previous year. Marketings of crops at \$3.92 billion, accounted for 65.6 percent of the total cash receipts in 2006 while livestock receipts, at \$2.05 billion, accounted for the remaining 34.4 percent. In the previous year crop receipts accounted for 62.3 percent and livestock 37.7 percent of total cash receipts.

Corn was the leading source of income for Indiana farmers in 2006 and amounted to \$1.85 billion. Soybeans were second at \$1.52 billion and meat animals were third with \$995 million. Poultry and Eggs returned to the fourth leading contributor with \$575 million and Dairy follows with \$449 million. These five commodity groups accounted for over 90 percent of the 2006 cash receipts.

2006 Indiana Cash Receipts

1/ Includes fruits and nuts, tobacco and other miscellaneous crops.

Value of Agricultural Sector Production	5,127,770	5,977,937	7,483,270	6,407,964	6,898,657

^{1/} Value of Agricultural sector production is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of-production, regardless of ownership. Net farm income is the farm operators' share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development.

^{2/} A positive value of inventory change represents current-year production not sold by December 31. A negative value is an offset to production from prior years included in current-year sales.

Net Farm Income	464,896	1,255,764	2,538,862	1,531,329	1,545,390

^{1/} Value of Agricultural sector production is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of-production, regardless of ownership. Net farm income is the farm operators' share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development.

U.S. GOVERNMENT PAYMENTS, BY PROGRAM INDIANA, 2002-2006 ^{1/}

Program	2002	2003	2004	2005	2006
Thousand Dollars					
Production Flexibility Contracts	145,198	(9,979)	(143)	(60)	(2)
Direct Payments ^{2/}	13,933	317,368	232,556	233,838	228,189
Counter-cyclical Program Payments	---	27,053	23,742	192,993	185,161
Loan Deficiency Payments	77,032	2,631	208,965	333,384	44,099
Marketing Loan Gains	22,820	746	5,633	17,450	7,617
Commodity Certificate Exchange Gains	141	1	2,426	8,444	61
Milk Income Loss Payments ^{3/}	13,609	16,138	3,025	277	6,538
Tobacco Transition Payments ^{4/}	---	---	---	20,675	10,980
Conservation ^{5/}	50,538	50,209	54,185	67,995	58,255
Supplemental Funding ^{6/}	11,021	42,159	1,756	39,014	456
Miscellaneous ^{7/}	28	(39)	(90)	(44)	(71)
Total	334,320	446,286	532,055	914,166	541,283

^{1/} Amounts include only cash payments made directly to farmers.

^{2/} Direct Payments are authorized by the Farm Security and Rural Investment Act of 2002 for 2002 through 2007 crops. Direct Payments for the 2002 crops are reduced by the amount of fiscal year 2002 payment received under Production Flexibility Contracts. The Act also increases the number of crops authorized to receive Direct Payments.

^{3/} Program authorized by the Farm Security and Rural Investment Act of 2002.

^{4/} Payment includes both the CCC payments to quota holders and producers and the third party payments to quota holders and producers who opted for the lump sum payment option.

^{5/} Includes amount paid under Conservation Reserve, Agriculture Conservation, Emergency Conservation, and Great Plains Program.

^{6/} Ad Hoc and emergency programs provided by the Agricultural Risk Protection Act of 2000, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act 2001 and Agricultural Economic Assistance Act 2001. Some of these programs include; Crop Disaster Program, Dairy Disaster Assistance Program, Livestock Emergency Assistance program, Quality Losses Program, and Tobacco Disaster Assistance Program

^{7/} Miscellaneous Programs include; Forestry Incentive Annual, Dairy Indemnity, Interest Payments, Disaster Program Payments, Payment Limitation Refund, Noninsured Assistance, Disaster Reserve, and Environment Quality Incentives.

The above estimates of Growing Degree Days (GDD) Normals are derived from normal temperatures (1971-2000) at mid-month and the corresponding GDD. For example, a weekly average temperature of 60°F resulted in 84 GDD. The basic formula is: $1/2 (\max T - 50) + 1/2 (\min T - 50) = \text{GDD for one day}$. The maximum temperature is not allowed to exceed 86 degrees F. Negative units are not accumulated.

CROP HIGHLIGHTS

ACREAGE: Indiana's five major field crops totaled 12.3 million acres during 2006, virtually the same as the 2005 planted acreage. Corn acreage for harvest was 7 percent below a year ago, while soybean acreage for harvest increased 6 percent. Winter wheat harvested acreage was up 35 percent from a year ago and all hay harvested acreage was the same as the 2005 level. Oat acreage for harvest increased 56 percent from the 2005 level. Other crops showing harvested acreage changes were processing tomatoes down 1 percent, snap beans for processing down 4 percent, and popcorn down 36 percent. In addition, cantaloupe acreage fell 7 percent and watermelon acreage increased 1 percent.

YIELDS: The 2006 growing season got off to a slow start due to cool, wet weather in April and May. Many corn and soybean fields or portions of fields had to be replanted due to heavy rains and cool temperatures causing germination and emergence problems. As of May 7th, 52 percent of the corn acreage and 15 percent of the soybean acreage had been planted. Planting of both crops was running behind the 5-year average pace. By May 28th, 89 percent of the corn acreage was planted and 58 percent of the soybean acreage was planted. Southern portions of the state were the furthest behind in planting because of frequent rain showers throughout the spring. Most areas of the state experienced good growing conditions during June, July and August with adequate precipitation and normal temperatures. Cool temperatures and heavy rains in September slowed the

maturing of both corn and soybeans. Harvest began later than normal and lagged behind the 5-year average throughout the fall. The average yield for corn was 157 bushels per acre, 3 bushels above the 2005 yield and the third highest on record. The average yield for soybeans was 50 bushels per acre, 1 bushel above the 2005 yield of 49 bushels per acre. The average yield for winter wheat at 69 bushels per acre was 3 bushels below the previous year's record yield of 72 bushels per acre. The average oat yield at 80 bushels per acre tied the record yield set in 2001. All hay yield at 3.39 tons per acre was .21 tons higher than the 2005 yield. Popcorn averaged 4,100 pounds per acre, 100 pounds per acre less than the 4,200 pounds per acre produced a year earlier.

PRODUCTION: Corn produced during 2006 was 844.7 million bushels, 5 percent below the 2005 level of 888.6 million bushels. Soybean production was 284.0 million bushels, 8 percent above the 263.6 million bushels produced a year earlier. Winter wheat production increased 30 percent from a year earlier, to 31.7 million bushels. Popcorn production totaled 196.8 million pounds, 38 percent below the 2005 level. Oat production of 1.1 million bushels was 80 percent above the 621 thousand bushels produced in 2005. All hay production, at 2.2 million tons, rose 6 percent. Peppermint production increased 24 percent, while spearmint production rose 25 percent. Apple production increased 10 percent to 55.0 million pounds. Blueberry production totaled 3.4 million pounds, a 3 percent decrease from the previous year.

LIVESTOCK HIGHLIGHTS

The total value of the four major species of livestock and poultry on Indiana farms January 1, 2007 (December 1, 2006 for swine and chickens) amounted to \$1,256.6 million, down 5 percent from a year earlier.

CATTLE inventory numbers, at 900,000, was unchanged from January 1, 2006 and value per head, at \$1,000 was \$60 below the previous year. Total cattle inventory value, at \$900.0 million, decreased 6 percent from the \$954.0 million last year. Cows and heifers that have calved totaled 400,000 head, up 7 percent from a year earlier. Of this total, 234,000 were beef cows, up 8 percent from the previous year; and 166,000 were milk cows, up 5 percent from the previous year.

HOG AND PIG numbers (December 1, 2006), at 3.35 million, were up 3 percent from a year earlier. The average value per head decreased from \$96.00 in 2005 to \$92.00 in 2006. This lowered the total inventory

value to \$308.2 million, 1 percent below a year ago. Indiana remained in fifth place in the nation for the number of hogs on hand December 1, 2006.

Total **SHEEP** inventory, at 53,000 head, for January 1, 2007 was up 6 percent, compared to a year earlier. Breeding sheep totaled 47,000 head. Average value per head at \$195.00, was up \$5.00 from 2006. Total inventory value at \$10.3 million was 9 percent above the previous year.

Total **CHICKEN** inventory, excluding broilers, on December 1, 2006, at 31.7 million birds, was slightly below last year. With this inventory, Indiana held on to third place in the nation for total chickens, excluding broilers, and remained in third position for hens and pullets of laying age (24.8 million). The total value of the chicken inventory was \$38.0 million, down 25 percent from 2005. The value per bird decreased \$0.40 from the previous year to \$1.20.

LIVESTOCK INVENTORY NUMBERS, INDIANA RECORD HIGHS AND LOWS

Species	Record High		Record Low		Year Series Began
	Number of Head	Year	Number of Head	Year

HOGS AND PIGS

The total pig crop in 2006 was 1 percent above the pig crop in 2005. Sows farrowed during the year increased 1 percent from the previous year, and litter rates rose slightly to 8.91. A \$4.00 decrease in average price per hundredweight brought a 7 percent decrease in cash receipts for 2006. Gross income of \$721 million (cash receipts plus value of home consumption) decreased 7 percent from a year earlier.

SHEEP AND LAMBS

The number of sheep and lambs marketed during 2006 increased 1 percent to 38,000 head. The total pounds of sheep and lambs marketed was 5 percent below the 2005 level. Cash receipts totaled \$2.41 million, down 15 percent from \$2.82 million in 2005. Gross income (cash receipts plus value of home consumption) totaled \$2.85 million in 2006 compared with \$3.22 million a year earlier. Sheep averaged \$32.30 per cwt. and lambs averaged \$94.00 per cwt. during 2006.

Lambs saved in 2006, at 45,000 head, was up 7 percent from the previous year. The number of ewes one year old and older on hand January 1, 2007 was up 9 percent from 2006. Lamb crop per 100 ewes one year old and older was 136 during 2006, up 7 percent from a year earlier.

Wool production increased 2 percent during 2006 to 275,000 pounds. Sheep and lambs shorn totaled 44,000 head with an average fleece weight of 6.3 pounds. Total value of shorn wool was \$47,000, up 2 percent from a year earlier and averaging 17 cents per pound.

POULTRY AND OTHER LIVESTOCK

Total value of production from eggs was \$224.6 million in 2006, up 17 percent from a year earlier. The average number of layers at 24.6 million was 4 percent above 2005. The average rate of lay was 2 percent above 2005, at 269 eggs per layer, resulting in a 5 percent increase in total egg production during 2006. The average price received by producers for eggs was 40.9 cents per dozen compared with 36.9 cents a year earlier.

COUNTY HIGHLIGHTS

COUNTY HIGHLIGHTS

The following pages of county statistics represent the results of a survey of over 11,000 farm operators following the 2006 harvest season. In addition to these data are selected items of interest from the 2000 U.S. Population Census, 2002 Census of Agriculture, and 2005 Cash Receipts information from the Bureau of Economics Analysis. The County Highlights section summarizes the importance of agriculture to each and every Indiana county while comparing the magnitude of importance across counties.

Planted acreage for hay is represented by three dashes because this category is not estimated, planted acreage and yield for popcorn are represented by three dashes because these categories are not surveyed; in all other places the three dashes represent zero for that county. An asterisk signifies that the county has data for this item, but it cannot be disclosed for confidentiality purposes. The 2002 Chicken data from Census includes only layers twenty weeks old and older.

Below is a list of comparable items at the state level.

STATE DATA

CUSTOMER SERVICE

REPORTS AND DATA FROM USDA'S NATIONAL AGRICULTURAL STATISTICS SERVICE (NASS)

Internet:

Reports and data from NASS as well as the Indiana Field Office are available on the internet.

For access, choose from the following:

NASS

<http://www.nass.usda.gov/>

Today's reports will be listed on the screen. To select from other reports, click on the **More** button next to "Today's Reports from NASS". You will then be redirected to another screen to make your selections.

Indiana Field Office

http://www.nass.usda.gov/Statistics_by_State/Indiana/

Publications pertaining to data specific to Indiana can be accessed from our Home page listed above. For a list of available reports, click on **Indiana Publications**, or choose from the drop down menu below "Indiana Publications", and then click on the yellow **go** button.

Data for other States can be accessed by choosing the desired State under the **Statistics by State** button on the bottom left side of the screen.

Internet Published Estimates Database:

Historical County, State, and U.S. information is available on the Internet FREE OF CHARGE. The database uses custom extracts based on commodity, year, State, and other selection criteria to produce an output file compatible for updating databases and/or spreadsheets. The database can be accessed from the NASS Home page shown above, or any State Field Office Home page. Just click on the **Quick Stats** button and follow the instructions. Searches for U.S. and State, State and County, and the Census of Agriculture data can be queried from here.

NASS Subject Specialists:

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Home page, click on **Publications**, then select **Contact a Specialist** in the **I Want To....** box on the right hand side of the screen.

NASS Customer Service:

NASS operates an information center, staffed 7:30 a.m. to 4:00 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, or obtaining printed copies. Please call **1-800-727-9540**.

E-Mail Subscriptions:

NASS Reports: Subscriptions to NASS reports are offered free through our e-mail service. From the right side of the NASS Home page, select National under **Receive reports by E-mail**. First time users will be required to set up an account. Select **Register** and follow instructions to choose the National reports you would like to receive and they will be delivered as soon as they are published.

Indiana Field Office Reports: State specific reports are also available free via e-mail. From the right side of the NASS Home page, select State under the heading **Receive reports by E-mail**. Reports from all states are available with this selection. Scroll down to select the reports you want, enter your name and e-mail address, and then click on **Submit**. Or, on the right side of the Indiana Field Office Home page, select Subscribe to IN reports. This will give you only reports for Indiana. After entering your name and e-mail address, click on **Submit**. E-mail reports available through the Indiana Field Office include: All Reports, Agriculture Report, Crop-Weather, Crops and Livestock, Miscellaneous, Press Releases.

Printed Report Subscriptions:

Printed copies of **NASS** reports are available for a fee to subscribers. To subscribe for national reports, call toll-free **1-800-999-6779** and ask for a list of reports and prices.

The **Indiana Field Office** also offers subscriptions to the following printed reports by completing the form on the next page and mailing it to our office, or by calling **1-800-363-0469**.

Indiana Agriculture Report - A comprehensive farm newsletter that covers planting reports, monthly and annual crop production, grain stocks, cattle, hogs, milk output, farm income and expenses, economic trends, etc.

Weekly Crop & Weather - Issued each Monday during the growing season, this report follows crop progress and condition, and provides weekly temperature and precipitation data.

County Level Data - An annual report providing county level data for the top crops in Indiana.

Indiana Agricultural Statistics Bulletin - Our annual summary, available each fall, contains data for rankings, farm income, weather, crops, livestock, prices, county crop and livestock data, etc.
