~ ~ ~ About the Cover ~ ~ ~

Featured on our front cover is "All Froze Up", taken by Casey Yager from Rushville, Indiana. This is Casey's fourth year in 4-H and she is thirteen years old. Casey said, "My dad and I were going out to feed one day and he held down a branch for me and I thought it looked awesome with our big red barn behind it. So I ran in and got my camera". She has always loved looking at photography exhibits at fairs, even before she was in 4-H. She said, "I have learned even the simplest things can be beautiful".

The photograph on the back of our cover was taken by seventeen year old Ellen Paige Gore from Newburgh, Indiana. The photo is named "Cow in Boonville", and Ellen said that the picture was taken on a beautiful June day while driving through country roads in Vanderburgh and Warrick counties, looking for photo opportunities for her 4-H project.

We extend a special thanks to the farmers, agri-businesses, extension officials and others who voluntarily provided basic data used to prepare the statistics presented in this publication and to the corps of enumerators who so faithfully collected much of our raw data.

We would also like to thank all of the 4-H photography members that submitted pictures for use in our publication. All of the photos were included on posters displayed at the 2008 Indiana State Fair.

Jay Akridge,
Glenn W. Sample Dean of Agriculture

This information is very important, but just as important are the people. We take this opportunity to thank the following for helping provide this valuable resource to the farmers of Indiana.

I am pleased to present the annual, "Indiana Agricultural Statistics", for the 2008-2009 issue. This is the 83rd edition and is published by the cooperative efforts of Purdue University and USDA's National Agricultural Statistics Service.

This cooperative effort has existed since 1925 and continues to reinforce the opportunity to enhance agricultural research programs with State specific statistical projects to support agricultural researchers and decision makers. Some of those projects include Timber Price Survey, Corn-after Corn Management Survey, Soybean Growers, Corn Ear Rot & Mycotoxin Analysis, Soybean Phytophthora Root Rot & Cyst Nematode Sampling, and Grain Marketing Analysis. Results of these special research efforts are published by the individual research programs. Even though these results are not a part of this publication please feel free to contact us for reference to those researchers for additional information.

This year's edition includes results from the 2007 Census of Agriculture which provides a 1974-2007 historical perspective for major data items and updated county level data in the County Highlights Section. The Indiana Agricultural Statistics Annual Summary provides you with a complete snapshot of Indiana's agriculture. Indiana's deep agricultural roots and long time farming tradition have provided a firm foundation for Agri-business growth in this state. Indiana agriculture continues to be a growing segment of the states economy, with Indiana ranked in the top ten nationally for farm receipts. Hoosier farmers should take pride in the fact that even with rising production expenses during 2008, Indiana farmers generated a record high \$10.0 billion in cash receipts.

The agricultural industry increasingly has a need for accurate, reliable and unbiased information and data. This information is used to provide facts to decision makers that determine the future of Indiana's agricultural industry. The goal for this publication remains unchanged. It is to provide the public with data to help them understand the current situation of Indiana's farming community and future opportunities. We strive to exceed this goal.

Indiana continues to rank near the top nationally in the production of corn, soybeans, popcorn, blueberries, peppermint, spearmint, processing tomatoes, and vegetables for processing. Indiana livestock producers put our state's rank at the top for hogs, chickens, eggs, and turkeys raised. The information in this annual summary is collected from farmers using surveys throughout the year. The voluntary response and cooperation of Indiana farmers, agricultural business firms, USDA Farm Services Agency County Staff, Purdue University County Extension Staff, the NASDA Enumerators, and others across the state makes this Annual Summary possible. The Indiana Field Office of USDA's National Agricultural Statistics Service pledges confidentiality of all individual reports and business data. We take every action necessary to ensure this pledge is upheld.

We are again pleased to feature the photography talents of 21 individual 4-H members within Indiana's 2008-2009 Agricultural Statistics Annual Summary. These photographs, exhibited at the 2008 Indiana State Fair, provide a glimpse of Indiana's agriculture from future farmers' perspective. We are grateful to all of the 4-H members who submitted their photos for publication.

Thank you for the opportunity to serve the agricultural community with timely, accurate, and unbiased information. Please let us know your comments and suggestions.

Sincerely,

Greg Preston
Director
USDA, NASS, Indiana Field Office

UNITS OF WEIGHTS, MEASURES, AND METRIC CONVERSION FACTORS

Commodity	Unit Published	Approximate Net Weight	
		U.S. Pounds	Metric Kilograms
Corn for Grain	Bushel, shelled	56	25.401
Oats for Grain	Bushel	32	14.515
Rye for Grain	Bushel	56	25.401
Sorghum for Grain	Bushel	56	25.401
Soybeans for beans	Bushel	60	27.216
Wheat, All Types	Bushel	60	27.216
This table contains the units of weights, measures, and conversion factors associated with the commodities shown. There are some variations among commodities in weight per unit of volume resulting from differences in size or variety of commodity.			
Standard Units			
1 Acre = 0.4047 Hectare		1 Hundredweight = 45.359 Kilograms	
1 Square Foot = 0.093 Square Meter		1 ton = 0.907 Metric Ton	
1 Pound = 0.45359 Kilograms		1 Gallon = 3.785 Liters

FARM INCOME

CASH RECEIPTS

Indiana farmers received \$9.96 billion in cash receipts from farm marketings in 2008, 24 percent above 2007. Cash receipts from crops were up 30 percent, and receipts for livestock were 10 percent above the previous year. Marketings of crops at \$7.11 billion, accounted for 71.4 percent of the total cash receipts in 2008 while livestock receipts, at \$2.86 billion, accounted for the remaining 28.7 percent. In the previous year crop receipts accounted for 67.8 percent and livestock 32.2 percent of total cash receipts.

Corn was the leading source of income for Indiana farmers in 2008 and amounted to \$3.95 billion. Soybeans were second at \$2.43 billion and meat animals were third with \$1.18 billion. Poultry and Eggs remained as the fourth leading contributor with \$1.01 billion and Dairy follows with \$640 million. These five commodity groups accounted for almost 93 percent of the 2008 cash receipts.

2008 Indiana Cash Receipts

1/ Includes fruits and nuts, and other miscellaneous crops.

Value of Agricultural Sector Production	7,435,934	6,387,130	6,824,117	8,777,436	10,918,659

^{1/} Value of Agricultural sector production is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of-production, regardless of ownership. Net farm income is the farm operators' share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development.

^{2/} Included with "All Other Crops".

^{3/} A positive value of inventory change represents current-year production not sold by December 31. A negative value is an offset to production from prior years included in current-year sales.

Total	532,024	917,903	541,285	302,505	321,903

1/ Amounts include only cash payments made directly to farmers.

2/ Direct Payments are authorized by the Farm Security and Rural Investment Act of 2002 for 2002 through 2007 crops. Direct Payments for the 2002 crops are reduced by the amount of fiscal year 2002 payment received under Production Flexibility Contracts. The Act also increases the number of crops authorized to receive Direct Payments.

3/ Program authorized by the Farm Security and Rural Investment Act of 2002.

4/ Payment includes both the CCC payments to quota holders and producers and the third party payments to quota holders and producers who opted for the lump sum payment option.

5/ Includes amount paid under Conservation Reserve, Agriculture Conservation, Emergency Conservation, and Great Plains Program.

6/ Ad Hoc and emergency programs provided by the Agricultural Risk Protection Act of 2000, Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act 2001 and Agricultural Economic Assistance Act 2001. Some of these programs include; Crop Disaster Program, Dairy Disaster Assistance Program, Livestock Emergency Assistance program, Quality Losses Program, and Tobacco Disaster Assistance Program

7/ Miscellaneous Programs include; Forestry Incentive Annual, Dairy Indemnity, Interest Payments, Disaster Program Payments, Payment Limitation Refund, Noninsured Assistance, Disaster Reserve, and Environment Quality Incentives.

2008	254.1	1,178.1	1,596.3	^{4/}	10.4	6.9	0.1

Fiscal Year	Meats and Products	Hides and Skins	Poultry Products	Fats, Oils and Greases	Feeds and Fodders	Seeds	Other ^{5/}	Total
Million Dollars								
2004	167.2	3.8	78.2	6.0	27.5	34.8	70.1	1,942.2
2005	217.7	4.7	98.8	4.7	30.5	37.9	66.6	1,826.7
2006	232.0	5.1	115.4	3.2	36.3	28.3	78.9	2,001.8
2007	249.6	4.6	153.4	7.6	36.7	30.1	63.9	2,413.1
2008	371.6	5.7	185.4	9.0	44.4	51.4	64.9	3,778.2

^{1/} The export shares are derived from contribution of Indiana to national output and sales. They do not show actual exports, but instead reflect the common stake of Indiana in the national export total.

^{2/} Apples & apple juice assumed to equal the previous year; current year production data has not yet been released.

^{3/} Methodology revised starting in 2007 to estimate shares based on state production of cheese, butter, dry whey, ice cream, and sherbet.

^{4/} Included in "Other".

^{5/} Minor oilseeds, essential oils, beverages other than juice, nursery and greenhouse, wine, tobacco and misc. vegetable products.

The above estimates of Growing Degree Days (GDD) Normals are derived from normal temperatures (1971-2000) at mid-month and the corresponding GDD. For example, a weekly average temperature of 60°F resulted in 84 GDD. The basic formula is: $1/2 (\max T - 50) + 1/2 (\min T - 50) = \text{GDD for one day}$. The maximum temperature is not allowed to exceed 86 degrees F. Negative units are not accumulated.

CROP HIGHLIGHTS

ACREAGE: Indiana's five major field crops totaled 12.2 million acres for harvest during 2008, down one percent from the 2007 harvested acreage. Corn acreage for harvest was 14 percent below a year ago, while soybean acreage for harvest increased 13 percent. Winter wheat harvested acreage was up 51 percent from a year ago, but all hay harvested acreage was down 3 percent from the 2007 level. Oat acreage for harvest decreased 37 percent from 2007. Other crops showing harvested acreage changes were snap beans for processing, down 10 percent while tomatoes for processing decreased one percent. Popcorn acreage for harvest decreased 12 percent from 2007. In addition, watermelons harvested acreage decreased 3 percent, while tomatoes for fresh market harvested acreage decreased 10 percent from 2007.

YIELDS: The 2008 growing season got off to a slow start due to cold, wet soil conditions. By May 18th, only 68 percent of the intended corn acreage and 23 percent of the soybean acreage had been planted. Severe flooding occurred the first week of June in several central and southern counties causing many acres of corn and soybeans to be drowned out. Wet weather continued throughout the spring hindering planting progress especially in southern Indiana. In fact, by June 15th, the southern districts were only at 91 percent planted for corn and 60 percent for soybeans. The persistent rain showers also made it difficult for farmers to cut and bale hay without it getting wet. Winter wheat harvest was also slowed but good yields were obtained in most areas. The major field crops had plenty of moisture until the middle of August when soils began to dry out. By August 24th, 54 percent of the topsoil was rated short or very short. Soils remained dry until Hurricane Ike brought some much needed precipitation to the state during the second week of September. However, strong winds also caused damage to many corn fields and some soybeans. Harvest began in mid September and continued at a slow pace throughout the fall. By November 2nd, Indiana corn harvest was 74 percent complete and soybean harvest was 91 percent complete. In some areas stalk quality was an issue causing a considerable amount of corn to lodge from the heavy winds produced by Hurricane Ike. Minimal rainfall allowed farmers plenty of time to harvest, however, the corn crop was slow to dry down with moisture content hovering around 20 percent in many fields. Moisture levels finally came down to acceptable levels in early November allowing farmers to finish harvest. The average yield for corn in 2008 was 160 bushels per acre, 6 bushels above the 2007 yield, and the 2nd highest on record. The average yield for soybeans was 45 bushels per acre, 1 bushel below the 2007 yield. The average yield for winter wheat at 69 bushels per acre was 13 bushels above the previous year's yield of 56 bushels per acre. The average oat yield at 75 bushels per

acre was up 22 bushels from last year's yield of 53 bushels per acre. All hay yield at 3.16 tons per acre was .84 tons higher than the 2007 yield. Popcorn averaged 4,500 pounds per acre, up 300 pounds from the 4,200 pounds per acre produced a year earlier.

PRODUCTION: Corn produced during 2008 totaled 873.6 million bushels, 11 percent below the 2007 level of 981.0 million bushels. Soybean production was 244.4 million bushels, 11 percent above the 220.3 million bushels produced a year earlier. Winter wheat production increased 86 percent from a year earlier, to 38.6 million bushels. Popcorn production totaled 274.5 million pounds, 5 percent below the 2007 level. Oat production of 375 thousand bushels was 12 percent below the 424 thousand bushels produced in 2007. All hay production, at 1.9 million tons, increased 32 percent. Peppermint production decreased 22 percent while spearmint production increased 4 percent from 2007. Apple production increased 15 percent to 23.0 million pounds. Blueberry production totaled 3.8 million pounds, a 138 percent increase from the previous year.

^{1/} Data from Objective Yield Survey.

BIOTECHNOLOGY VARIETIES

The National Agricultural Statistics Service conducts the June Agricultural Survey in all States each year. Randomly selected farmers across Indiana are asked if they planted corn or soybean seeds that, through biotechnology, are resistant to herbicides, insects, or both. Conventionally bred herbicide resistant varieties were excluded. Insect resistant varieties include only those containing bacillus thuringiensis (Bt). Stacked gene varieties include those containing biotech traits for both herbicide and insect resistance.

LIVESTOCK HIGHLIGHTS

The total value of the four major species of livestock and poultry on Indiana farms January 1, 2009 (December 1, 2008 for swine and chickens) amounted to \$1,210.2 million, down 8 percent from a year earlier.

HOG AND PIG numbers (December 1, 2008), at 3.55 million, were down 4 percent from a year earlier. The average value per head increased from \$75.00 in 2007 to \$90.00 in 2008. This raised the total inventory value to \$319.5 million, 15 percent above a year ago. Indiana remained in fifth place in the nation for the number of hogs on hand December 1, 2008.

CATTLE inventory numbers, at 860,000, were down 3 percent from January 1, 2008 and value per head, at \$970 was \$140 below the previous year. Total cattle inventory value, at \$834.2 million, decreased 16 percent from the \$987.9 million last year. Cows and heifers that have calved totaled 380,000 head, down 5 percent from

a year earlier. Of this total, 213,000 were beef cows, down 5 percent; and 167,000 were milk cows, up 1 percent from the previous year.

Total **SHEEP** inventory, at 50,000 head, for January 1, 2009 was down 4 percent, compared to a year earlier. Breeding sheep totaled 43,000 head. Average value per head at \$201.00, was up \$7.00 from 2008. Total inventory value at \$10.05 million was slightly below the previous year.

Total **CHICKEN** inventory, excluding broilers, on December 1, 2008, at 31.0 million birds, was down 4 percent from last year. With this inventory, Indiana held on to third place in the nation for total chickens, excluding broilers, and remained in third position for hens and pullets of laying age (24.4 million). The total value of the chicken inventory was \$46.4 million, up 11 percent from 2007. The value per bird increased \$0.20 from the previous year to \$1.50.

HOGS AND PIGS

The total pig crop in 2008 was slightly above the pig crop in 2007. Sows farrowed during the year decreased 2 percent from the previous year, while litter rates increased 2 percent to 9.14. A \$3.00 increase in average price per hundredweight brought an 18 percent increase in cash receipts for 2008. Gross income of \$925 million (cash receipts plus value of home consumption) increased 18 percent from a year earlier.

SHEEP AND LAMBS

The number of sheep and lambs marketed during 2008 decreased 4 percent to 32,900 head. The total pounds of sheep and lambs marketed was 2 percent below the 2007 level. Cash receipts totaled \$2.07 million, down 3 percent from \$2.13 million in 2007. Gross income (cash receipts plus value of home consumption) totaled \$2.76 million in 2008 compared with \$2.67 million a year earlier. Sheep averaged \$25.00 per cwt. and lambs averaged \$102.00 per cwt. during 2008.

Lambs saved in 2008, at 41,000 head, was down 5 percent from the previous year. The number of ewes one year old and older on hand January 1, 2008 was down 3 percent from 2007. Lamb crop per 100 ewes one year old and older was 117 during 2008, down 2 percent from a year earlier.

Wool production was unchanged from the previous year, at 250,000 pounds. Sheep and lambs shorn totaled 40,000 head with an average fleece weight of 6.3 pounds. Total value of shorn wool was \$45,000, down 25 percent from a year earlier and averaging 18 cents per pound.

COUNTY HIGHLIGHTS

COUNTY HIGHLIGHTS

The following pages of county statistics represent the results of a survey of over 11,000 farm operators following the 2008 harvest season. In addition to these data are selected items of interest from the U.S. Population Census, 2007 Census of Agriculture, and 2007 Cash Receipts information from the Bureau of Economics Analysis. The County Highlights section summarizes the importance of agriculture to each and every Indiana county while comparing the magnitude of importance across counties.

Planted acreage for hay is represented by three dashes because this category is not estimated, planted acreage and yield for popcorn are represented by three dashes because these categories are not surveyed; in all other places the three dashes represent zero for that county. An asterisk signifies that the county has data for this item, but it cannot be disclosed for confidentiality purposes. The 2007 Chicken data from Census includes only layers twenty weeks old and older.

Below is a list of comparable items at the state level.

STATE DATA

2007 Census Population	6,335,862	2007 Cash Receipts	\$8,075,225,000

REPORTS AND DATA FROM USDA'S NATIONAL AGRICULTURAL STATISTICS SERVICE (NASS)

Internet:

Reports and data from NASS as well as the Indiana Field Office are available on the internet.

For access, choose from the following:

NASS

<http://www.nass.usda.gov/>

Today's reports will be listed on the screen. To select from other reports, click on the **More** button next to "Today's Reports from NASS". You will then be redirected to another screen to make your selections.

Indiana Field Office

http://www.nass.usda.gov/Statistics_by_State/Indiana/

Publications pertaining to data specific to Indiana can be accessed from our Home page listed above. For a list of available reports, click on **Indiana Publications**, or choose from the drop down menu below "Indiana Publications", and then click on the yellow **go** button.

Data for other States can be accessed by choosing the desired State under the **Statistics by State** button on the bottom left side of the screen.

Internet Published Estimates Database:

Historical County, State, and U.S. information is available on the Internet FREE OF CHARGE. The database uses custom extracts based on commodity, year, State, and other selection criteria to produce an output file compatible for updating databases and/or spreadsheets. The database can be accessed from the NASS Home page shown above, or any State Field Office Home page. Just click on the **Quick Stats** button and follow the instructions. Searches for U.S. and State, State and County, and the Census of Agriculture data can be queried from here.

NASS Subject Specialists:

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Home page, click on **Publications**, then select **Contact a Specialist** in the **I Want To....** box on the right hand side of the screen.

NASS Customer Service:

NASS operates an information center, staffed 7:30 a.m. to 4:00 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, or obtaining printed copies. Please call **1-800-727-9540**.

E-Mail Subscriptions:

NASS Reports: Subscriptions to NASS reports are offered free through our e-mail service. From the right side of the NASS Home page, select National under **Receive reports by E-mail**. First time users will be required to set up an account. Select **Register** and follow instructions to choose the National reports you would like to receive and they will be delivered as soon as they are published.

Indiana Field Office Reports: State specific reports are also available free via e-mail. From the right side of the NASS Home page, select State under the heading **Receive reports by E-mail**. Reports from all states are available with this selection. Scroll down to select the reports you want, enter your name and e-mail address, and then click on **Submit**. Or, on the right side of the Indiana Field Office Home page, select Subscribe to IN reports. This will give you only reports for Indiana. After entering your name and e-mail address, click on **Submit**. E-mail reports available through the Indiana Field Office include: All Reports, Agriculture Report, Crop-Weather, Crops and Livestock, Miscellaneous, Press Releases.

Printed Report Subscriptions:

Printed copies of **NASS** reports are available for a fee to subscribers. To subscribe for national reports, call toll-free **1-800-999-6779** and ask for a list of reports and prices.

The **Indiana Field Office** also offers subscriptions to the following printed reports by completing the form on the next page and mailing it to our office, or by calling **1-800-363-0469**.

Indiana Agriculture Report - A comprehensive farm newsletter that covers planting reports, monthly and annual crop production, grain stocks, cattle, hogs, milk output, farm income and expenses, economic trends, etc.

Weekly Crop & Weather - Issued each Monday during the growing season, this report follows crop progress and condition, and provides weekly temperature and precipitation data.

Indiana Agricultural Statistics Bulletin - Our annual summary, available each fall, contains data for rankings, farm income, weather, crops, livestock, prices, county crop and livestock data, etc.
