Mississippi Crop Progress and Condition Report

Delta Region - Mississippi Field Office 121 North Jefferson Street, Suite 230, Jackson, MS 39201 (601) 359-1259 · (601) 359-1266 FAX · www.nass.usda.gov/ms Cooperating with Mississippi Department of Agriculture and Commerce

Week Ending July 2, 2017

According to the National Agricultural Statistics Service in Mississippi, there were 3.9 days suitable for fieldwork for the week ending Sunday, July 2, 2017. Topsoil moisture supplies were 0 percent very short, 8 percent short, 66 percent adequate, and 26 percent surplus. Subsoil moisture supplies were 0 percent very short, 6 percent short, 69 percent adequate, and 25 percent surplus. Low temperatures ranged from 59.0 degrees Fahrenheit at Verona to 74.4 degrees Fahrenheit at Biloxi. Highs ranged from 83.5 degrees Fahrenheit at Crystal Springs to 90.6 degrees Fahrenheit at Yazoo City. Most of the state received rain, with the highest concentration in the southeast part of the state with an average of 2.95 inches.

Crop progress for week ending July 2, 2017

Comments from Cooperative Extension Service County Agents

"Soybeans are off to a good start according to reports from producers. Hay producers took advantage of the dry weather early in the week and completed most of their first cuttings."

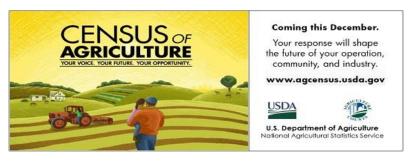

- Lemon Ray Phelps, Marshall County

"Producers truly need some dry days to get in the hay fields! This past week, several producers tried to cut hay, but suddenly realized the ground was so wet that the hay equipment wouldn't stand up on the hay ground. They need about two weeks of dryer weather to get the rest of first cutting of hay completed. Hopefully it hasn't rained out for the year; periodic rain will be needed to keep things green and growing."

- Bert Gilmore, Neshoba County

"Most row and vegetable crops are progressing very well. Livestock producers need several dry days to resume summer hay harvesting."

- Lamar Adams, Pike County

This publication is part of a series that first began in 1872 and has been continuously published since. In Mississippi, this report is a result of the cooperative efforts of:
