## Comments from Cooperative Extension Service County Agents

“Rain from Hurricane Harvey stopped all harvest progress. We need this to clear out and give us some sunshine.”

- Jimbo Burkhalter, Tallahatchie County

“Hay producers finally get a break in the rainy weather only to hear of a hurricane in the Gulf of Mexico. Maybe we can cure some hay before the rains come, again!”

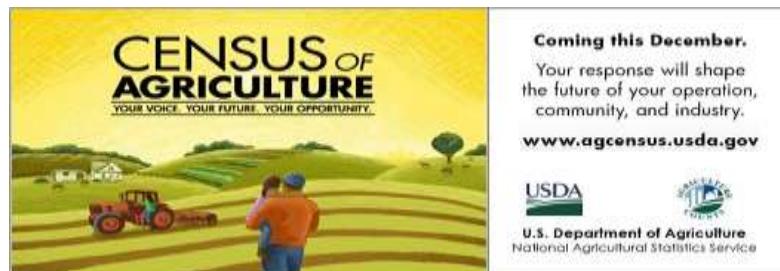

- Bert Gilmore, Neshoba County

“Corn harvest is upon us, but with the threading heavy rains in the forecast, some farmers were rolling on harvest this past weekend. Soybeans are in there final stages of growth and farmers are looking ahead to soon dig some peanuts. Stink bugs are causing some problems in some fields and this may lower some yields on soybeans in those areas. Livestock on pasture are still grazing on peak grass harvest and cattle are improving for future beef market.”

-James “Randall” Nevins, Monroe County

“Producers are still having problems getting hay cut and rolled.”

- Thomas E. Brewer, Jefferson County
