Cooperating with Mississippi Department of Agriculture and Commerce

This report contains the results from the **Crop Progress and Condition** weekly survey. The survey is completed by county extension agents' visual observations and contact with producers in their county. These data are also posted on our web site at <https://www.nass.usda.gov/ms> and in a more detailed report at <https://www.nass.usda.gov>. Thanks to all of the county extension agents who responded to this survey.

Week Ending: November 26, 2023

Released: November 27, 2023

Message from the Editor

This is the **final Mississippi Crop Progress and Condition Report** for 2023. We will resume this report in March 2024. We would like to give special thanks to our County Agents and Mississippi State University Extension Service for their ongoing participation.

According to the National Agricultural Statistics Service in Mississippi, there were 5.3 days suitable for fieldwork for the **week ending Sunday, November 26, 2023**. Topsoil moisture supplies were 24 percent very short, 42 percent short, 33 percent adequate, and 1 percent surplus. Subsoil moisture supplies were 25 percent very short, 46 percent short, 29 percent adequate, and 0 percent surplus.

Crop Progress for Week Ending November 26, 2023

Crop	This week	Last week	Last year	5-year average
	(percent)	(percent)	(percent)	(percent)
Cotton harvested	100	99	100	96
Peanuts dug	99	97	99	98
Peanuts harvested	95	89	94	90
Sweet potatoes harvested	99	96	100	98
Winter wheat planted	82	79	78	73
Winter wheat emerged	71	54	70	59

USDA AGRICULTURE COUNTS

Mississippi Subsoil Moisture Map for the week of November 13 – November 19, 2023

The Soil Moisture Active Passive (SMAP) provides measurements of soil moisture in the root zone as a weekly average, represented by pixels. Each pixel represents 9 by 9 kilometer plot or about 20,000 acres. The SMAP data measures soil moisture in cubic centimeters of water/cubic centimeters of soil. The scale represents the percent of water in a given volume of soil. More information and additional mapping is available at <https://nassgeo.csiss.gmu.edu/CropCASMA/>.
