## USDA to measure cost of pollination

HARRISBURG, PA -- The U.S. Department of Agriculture's National Agricultural Statistics Service (NASS) will conduct its 2022 Cost of Pollination survey from November through December of 2022. The survey will be sent to nearly 16,000 producers nationwide.

"Honey bees are important pollinators of crops ranging from almonds to zucchinis," said King Whetstone, director of the NASS Northeastern Regional Field Office. "To help accurately depict the health of the pollination industry in the United States, NASS will ask crop producers about their use of honey bees, the fees they paid for honey bee pollination, and any other expenses related to pollinating their crops."

Survey recipients are asked to respond securely online through the Respondent Portal at [agcounts.usda.gov](https://agcounts.usda.gov), by mail, or fax. Those who do not respond by November 14 may be contacted by a NASS representative to arrange an interview to complete the survey.

All information reported by producers will be kept confidential, as required by federal law. NASS will publish the survey data January 11, 2023, on the NASS website at [nass.usda.gov](https://nass.usda.gov) and in the NASS Quick Stats searchable database at [quickstats.nass.usda.gov](https://quickstats.nass.usda.gov).

For more information about the Cost of Pollination survey and NASS's bee and honey program, visit [nass.usda.gov/Surveys/Guide\\_to\\_NASS\\_Surveys/Bee\\_and\\_Honey](https://nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Bee_and_Honey). NASS's other honey bee reports include the *Honey* report published every March and the *Honey Bee Colonies* report published every August.

For assistance with the survey, producers are encouraged to call the NASS Northeastern Regional field office at (800) 498-1518.
