## JERSEY FRESH FORECAST

<b>BASIL</b>	Likes warmer weather. Should be ready in mid-June.
<b>BLUEBERRIES</b>	Minor quantities of early varieties like Weymouth starting in mid-June. The much more widely planted Duke variety will start 3-4 days with volume available a week later.
<b>CABBAGE</b>	Won't be ready until late May or early June.
<b>PEACHES</b>	Winter was longer & colder than normal, & coupled with a slowly warming Spring. The season will be a bit delayed & start in early to mid-July w/ early PF & Sentry varieties, w/ volume and freestone varieties starting a week later. White peaches start a week after that w/ volume late July.
<b>SQUASH</b>	Should start harvesting field grown zucchini in 2-3 weeks with yellow squash starting a few days later.
<b>TURNIPS</b>	Should begin harvesting in early June.
