U.S. DEPARTMENT OF AGRICULTURE NATIONAL AGRICULTURAL STATISTICS SERVICE

Mission

The National Agricultural Statistics Service provides timely, accurate, and useful statistics in service to U.S. agriculture.

Overview

The USDA's National Agricultural Statistics Service (NASS) conducts hundreds of surveys every year and prepares reports covering virtually every aspect of U.S. agriculture. Production and supplies of food and fiber, prices paid and received by farmers, farm finances, chemical use, and changes in the demographics of U.S. producers are only a few examples.

NASS is committed to providing timely, accurate, and useful statistics in service to U.S. agriculture.

To uphold our continuing commitment, NASS will:

- Report the facts on American agriculture, facts needed by people working in and depending upon U.S. agriculture.
- Provide objective and unbiased statistics on a preannounced schedule that is fair and impartial to all market participants.
- Conduct the Census of Agriculture every five years, providing the only source of consistent, comparable, and detailed agricultural data for every county in America.
- Serve the needs of our data users and customers at a local level through our network of State field offices and our cooperative relationship with universities and State Departments of Agriculture.
- Safeguard the privacy of farmers, ranchers, and other data providers, with a guarantee that confidentiality and data security continue to be our top priorities.

NORTH CAROLINA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Mission

To provide services that promote and improve agriculture, agribusiness and forests; protect consumers and businesses; and conserve farmland and natural resources for the prosperity of all North Carolinians.

Overview

The N.C. Department of Agriculture and Consumer Services' divisions have responsibilities in regulatory and service areas covering agronomy; animal health; weights and measures; gas and oil inspection; crop and livestock statistics; USDA commodity distribution; state farm operations; food, drug and cosmetic testing for purity; agricultural marketing and promotion; agricultural marketing grading; international agricultural crop and livestock marketing; operation of the North Carolina State Fair and North Carolina Mountain State Fair; operation of four state farmers markets; research station operations; seed and fertilizer inspection; nursery and plant pest eradication activities; regulation of the structural pest control industry; agricultural environmental issues; soil and water conservation; forest management and protection; state and federal agricultural legislation; and agricultural economic analysis.

STATISTICAL REPORTS PROGRAM

The USDA's National Agricultural Statistics Service compiles current and historic statistics concerning agriculture in North Carolina. Where possible, information most often requested by farmers, the general public, and workers in government agencies are included. Reporting of crop and livestock statistics is a service provided to farmers and others in the State by the National Agricultural Statistics Service of the U.S. Department of Agriculture in cooperation with the North Carolina Department of Agriculture and Consumer Services. The collection and dissemination of agricultural statistics started in 1863. This is one of the oldest activities of the United States Department of Agriculture. It was recognized that there were advantages of a joint relationship between the State and Federal Governments in the development of agricultural statistics. In 1919, the N.C. Department of Agriculture entered into a cooperative agreement with the U.S. Department of Agriculture to provide detailed agricultural statistics. The agreement resulted in the creation of the Agricultural Statistics Division of the North Carolina Department of Agriculture and Consumer Services. The USDA's National Agricultural Statistics Service publishes official statistics on North Carolina crops, livestock, prices, and various other agricultural items. The most requested reports and the approximate dates of releases are shown in the table below. These reports are free and available on the internet at www.ncagr.gov/stats, www.nass.usda.gov/Publications/index.php, or by writing to: State Statistician, Agricultural Statistics, P.O. Box 27767, Raleigh, NC 27611. Current and historical data series can be found at <http://quickstats.nass.usda.gov/>. For additional information regarding North Carolina agricultural statistics please email dee.webb@usda.gov.

TYPE OF REPORT	FREQUENCY OF REPORT	APPROX. DATE AVAILABLE
CROP REPORTS		
Annual Crop Production	Annually	Second Week in January
Annual Vegetable Production	Annually	Second Week in February
Prospective Plantings	Annually	Last Week in March
Acreage Report	Annually	Last Week in June
Annual Noncitrus Fruit & Nut Production	Annually	First Week in May
Small Grains Summary	Annually	Last Week in September
Field Crop Production	Monthly (In Season)	Second Week of Each Month
Grain Stocks	Quarterly	Second Week in January, Last Week in March, June & September

DEFINITIONS & METHODOLOGY

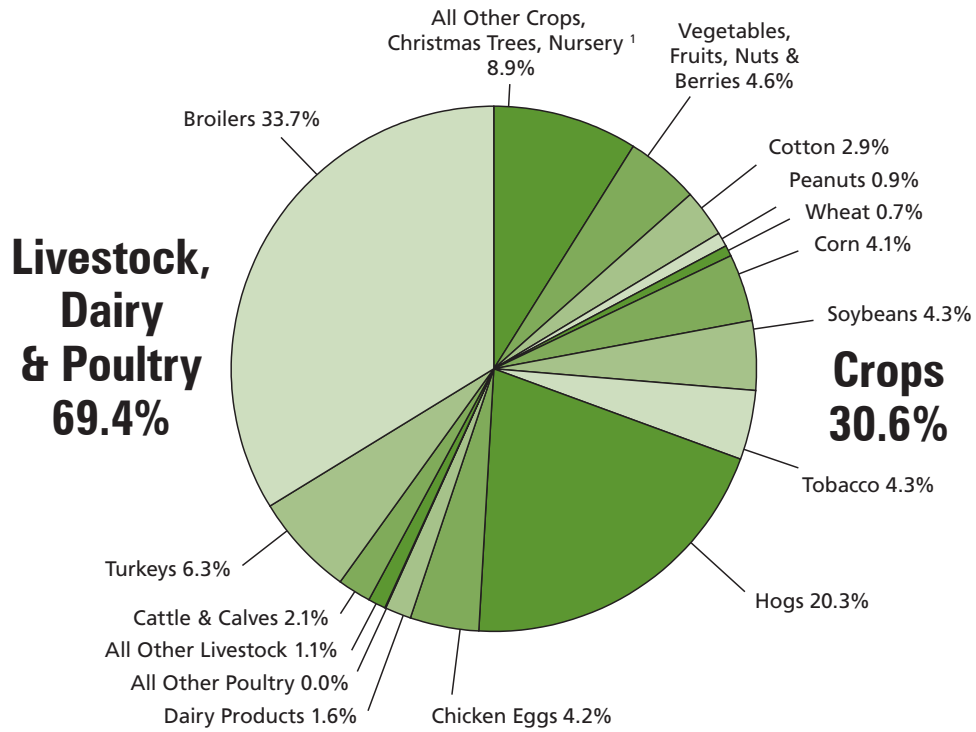

Cash receipts for agricultural commodities are defined as the gross income from sales of crops, livestock, and livestock products during a calendar year. The USDA, Economic Research Service (ERS) uses USDA, National Agricultural Statistics Service (NASS) estimates to develop state level cash receipts. The county level cash receipts in this publication are based on the ERS state level cash receipts and various county data. To ensure respondent confidentiality, estimates at any level, including county estimates, are not published if those estimates would disclose any information about individual operations. More information about ERS and NASS data can be found at the following websites:

<https://www.ers.usda.gov/data-products/farm-income-and-wealth-statistics/>
[www.nass.usda.gov/Data and Statistics/](http://www.nass.usda.gov/Data_and_Statistics/)

¹ Cash receipts from farm marketings represent gross returns from the actual sales of crops and livestock products during the calendar year. ² Totals may not equal sum of counties due to rounding. *Cash receipts are not published for some counties to avoid disclosure of individual farming operations. USDA NASS County Estimating Program Policies and Standards apply.

¹ Excludes commercial broilers. ² Includes rendered, died, destroyed, composted, or disappeared for any reason except sold during the 12-month period.

HONEY

Production, Stocks, and Value

Year	Honey Producing Colonies ¹	Yield per Colony	Production	Stocks December 15 ²	Average Price per Pound ³	Value of Production ⁴
	<i>Thousands</i>	<i>Pounds</i>	<i>Thousand Pounds</i>	<i>Thousand Pounds</i>	<i>Dollars</i>	<i>Thousand Dollars</i>
2015	12	45	540	103	4.51	2,435
2016	12	37	444	89	4.78	2,122
2017	11	41	451	99	4.58	2,066
2018	10	33	330	63	5.76	1,901
2019	14	42	588	118	4.06	2,387
US 2019 ⁵	2,812	55.8	156,922	41,022	1.97	309,136

¹ Honey producing colonies are the maximum number of colonies from which honey was taken during the year. It is possible to take honey from colonies which did not survive the entire year. ² Stocks held by producers. ³ Average price per pound based on expanded sales. ⁴ Value of production is equal to production multiplied by average price per pound. ⁵ Due to rounding, total colonies multiplied by total yield may not equal production.
