**AGRICULTURAL STATISTICS  
ANNUAL BULLETIN**

**PENNSYLVANIA**

COMMONWEALTH OF PENNSYLVANIA  
DEPARTMENT OF AGRICULTURE

Dear Friends of Pennsylvania Agriculture,

Access to information is vitally important to businesses, investors and policy makers. Ideally, with better information comes better decisions.

The Agricultural Statistics Annual Bulletin offers an objective, thorough and comprehensive source of data. It is an indispensable tool for agricultural planners, economists, policy makers, lenders, scientists and other professionals who need to capture a picture of the agriculture industry today, recent trends, and projections for the future.

At the Pennsylvania Department of Agriculture, we use the data in this report to administer programs and policies that support the growth and vitality of the industry that drives Pennsylvania's economy and feeds our future. This bulletin—made possible by the exceptional work of USDA National Agricultural Statistical Service's statisticians, enumerators and other staff—is invaluable for informing our own work. The bulletin offers a picture of Pennsylvania's nearly 58,000 farm families, their workforce, the tremendous breadth and diversity of what they produce on 7.7 million acres across the state, and the value of those products.

So regardless of whether you are considering a business venture or need data on local production volumes, you have found a valuable tool in the Agricultural Statistics Annual Bulletin.

Sincerely,

A handwritten signature in blue ink that reads "Russell C. Redding".

Russell C. Redding  
Pennsylvania Secretary of Agriculture

National Agricultural Statistics Service  
Northeastern Regional Field Office

Dear Friends,

Here at USDA's National Agricultural Statistics Service our goal is to provide timely, accurate, and useful statistics in service to U.S. agriculture. Therefore, we are pleased to provide you with the latest edition of the Pennsylvania Agricultural Statistics Annual Bulletin.

This report documents the current status of Pennsylvania agriculture and includes history to show changes and trends occurring. Information included provides valuable facts for anyone interested in following the progress of farming and related industries in Pennsylvania. These facts are essential for decision makers to accurately assess the health of agriculture and to assist farmers in making appropriate business decisions. The numbers in this publication will also be used to administer and help support USDA farm programs, to determine the feasibility of new ventures, and to aid research and development projects throughout the state.

Publication and dissemination of these and other agricultural statistics is only possible with the support of the entire agricultural industry. My sincere appreciation is extended to all the farm families and businesses who, so willingly, gave their time and records so the estimates in this report could be prepared. Without your cooperation, none of this information would be possible. Having this information at our fingertips remains vital to the best interest of Pennsylvania agriculture.

In conclusion, I'm asking every Pennsylvania producer to respond to the 2017 Census of Agriculture, which will be mailed out in December 2017. Taken every five years, it's a complete count of U.S farms and the people who operate them. Remember, the Census of Agriculture is your voice, your future, and your opportunity. Help rural America. Be counted.

Please visit our website at [www.nass.usda.gov](http://www.nass.usda.gov) to view this publication and to learn more about our programs, including the Census. If you would like additional assistance, please do not hesitate to contact us by e-mail, telephone, or personal visit; your comments regarding our programs and publications are always welcomed.

I wish all the readers of this Annual Bulletin good fortune this year and for years to come.

Sincerely,

King J. Whetstone II  
Northeastern Regional Director

<sup>1</sup> Many significant changes were made to the vegetable estimating program beginning in 2016. For additional details, including data for fresh and processing production and previous years data, please reference the Vegetables Annual Summary at [www.nass.usda.gov](http://www.nass.usda.gov)

<sup>2</sup> Beginning in 2016, Total Production and Utilized Production were estimated for each crop. In previous years, estimates were made for Production, which represented the portion of the crop that was harvested and sold. This most closely represents the Utilized Production in the current report and can be used for comparison.

<sup>3</sup> Beginning in 2016, Harvested Not Sold estimates were added to the estimating program. This represents the difference between Total Production (the amount of the crop harvested from the field) and Utilized Production (the amount of the crop that was sold).

<sup>1</sup> Number of farms reporting item divided by total number of farms.

<sup>2</sup> Total expenditures divided by total number of farms. Items may not sum to total due to rounding.

<sup>3</sup> Atlantic Region consists of CT, DE, KY, ME, MD, MA, NH, NJ, NY, NC, PA, RI, TN, VA, VT, WV.

<sup>4</sup> Includes purchases and leasing of livestock and poultry.

<sup>5</sup> Includes all crop custom work, veterinary custom services, transportation costs, marketing charges, insurance, leasing of machinery and equipment, general and miscellaneous business expenses, and utilities.

<sup>6</sup> Includes cash rent paid, share rent, plus public and private grazing fees.

<sup>7</sup> Includes material and application costs.

<sup>8</sup> The sum of real estate taxes and personal property taxes for operator, landlord, and contractor.

<sup>9</sup> Includes all other fuels not specifically listed in the questionnaire (natural gas, coal, fuel oil, kerosene, wood, etc.).

<sup>10</sup> Includes bedding/litter, marketing containers, power farm shop equipment, oil and lubricants, temporary fencing, miscellaneous non-capital equipment and supplies, repairs and maintenance of equipment not depreciated, and other small, non-capital equipment.

<sup>11</sup> Includes all expenditures related to new construction or repairs of buildings, fences, operator dwelling (if dwelling is owned by operation), and any improvements to physical structures of land.

<sup>12</sup> Includes all purchases of seed, plants, or seed treatments for nursery or farming operation. Excludes bedding plants, nursery stock, and seed purchased for resale.

<sup>13</sup> Records any capital expenses not recorded in specific items on the questionnaire. It was estimated for the first time in 2005. Due to the small size of this expense, a zero in this line-item denotes less than 5 million dollars. Average value derived from expenditure rounding to zero will also be zero.

<sup>14</sup> Includes landlord and contractor share of farm production expenses. May not add due to rounding.

<sup>15</sup> United States excludes AK and HI.
