This report contains information on prices and values of production for major field crops and many specialty crops. All prices in this report are marketing year average prices, which are based on sales in the months comprising each commodity's marketing year. State-level value of production is computed by multiplying each state's price by its production.

US Value of Production for Field and Miscellaneous Crops down 12 Percent in 2023

The United States value of production for field and miscellaneous crops was estimated at \$191 billion in 2023, down 12 percent from 2022. Alabama's value of field and miscellaneous crop production totaled \$1.14 billion, down 15 percent from the previous year. At \$278 million, Alabama's leading value of crop production was corn for grain. The value of Florida's field and miscellaneous crop production totaled \$1.44 billion, a 3 percent increase from 2022. The value of Georgia's field and miscellaneous crop production was estimated at \$2.54 billion, a decrease of 15 percent from the previous year. The leading crop production value for Georgia was cotton at \$868 million. Field and miscellaneous crop values in South Carolina totaled \$908 million, an 8 percent decrease from 2022. The value of corn for grain, at \$286 million, represented the largest value for South Carolina.

Field and Miscellaneous Crops Total Value of Production – States: 2014-2023

¹ The 2023 total value of production includes an estimated value of production for sugarcane for sugar and seed which is computed using 2022 prices.

² Preliminary.

³ The preliminary 2023 value of production is based on marketings and monthly prices received from August 1, 2023 to December 31, 2023.

⁴ Values include sugar and seed. The preliminary 2023 value of production will be published in [Agricultural Prices](#), released July 2024.

⁵ State and national totals for field and miscellaneous crops may not add due to select crops only included in the table.

¹ Average prices per unit computed by weighting State market year-average prices by estimated sales for all crops, except corn, oats, winter wheat, soybeans, and Upland cotton, which are computed by weighting United States monthly prices by estimated monthly marketings.

² Preliminary.

³ The preliminary 2023 price is based on marketings and monthly prices received from August 1, 2023 to December 31, 2023.

⁴ The preliminary 2023 price will be published in [Agricultural Prices](#), released July 2024. Sugarcane price is for sugar only.
