Footnotes:

1. 2023 state wheat planted estimate of 6.40 million acres, and 2024 preliminary estimate of 5.90 million acres
2. Percent of total acres seeded and to be seeded for the 2024 crop year. Percentages may not add to 100 due to rounding or suppression due to publication disclosure.
3. An (*) indicates the variety was reported, but accounts for less than 2/10th of a percent of the State-level reported acreage, or data was suppressed to avoid disclosing individual reported information. (-) Indicates no reports.
4. East, Southeast, Coastal Bend, South districts are combined into Other Districts.
5. Includes varieties with less than 0.2 percent of total acres, or that are suppressed to avoid disclosure of individual reports.
6. Unknown contains unspecified varieties that were included to account for acreage
7. An insufficient number of reports were available to publish individual Hard Red Spring or Hard White Winter varieties in 2024.
